

AMENDMENTS TO THE SPECIFICATION

Please amend the specification as shown below.

Please replace the paragraph beginning on page 11, line 13, with the following amended paragraph:

Note that since the horizontal aging circuit 5 is provided on a seal region 100 of the liquid crystal display panel 1, there is no disadvantage of the external size becoming larger due to formation of the horizontal aging circuit 5. The first pad region 6 and the second pad region, as shown in Fig. 1, are formed in parallel at a first edge portion 101 of the glass substrate 3.
